UNION STANDARD EQUIPMENT

the company you have trusted for more than a century

Very Competitive Pricing At A Fraction Of New Cost Engineering Assistance & Worldwide Shipping

APPRAISALS

Our certified market appraisers are experts in buying and selling used machinery, and are able to tap into our records from more than 100 years of serving the industry to provide you with a Fair Market, In Place, Forced Liquidation (auction) or Orderly Liquidation value.

ASSET MANAGEMENT

Allow us to provide and maintain a centralized list of your surplus assets whether they are warehoused at one of Union's three convenient locations, or in your plants.

AUCTIONS & LIQUIDATIONS

With our vast experience and global marketing reach, we are able to tailor a program to meet your needs, whether you want cash, want to share in the gross proceeds, or want us to work on a commission basis.

CONSIGNMENTS

Whether you are looking to free up valuable space, or want to maximize your return on investment, you should strongly consider sending your surplus equipment to us on consignment, as there is never a charge for handling or warehousing.

CONTRACT REBUILDING

Our expert technicians will take your worn and/or incomplete processing & packaging machines and rebuild them, set to your specifications.

LEASING

We can provide a leasing program to fit your individual needs so that you can improve cash flow, maintain your capital budget and provide the option of purchasing at the end of the lease.

RENTALS

Renting may be your best option if you want to reduce your risk, are developing a new product, temporarily increasing production, or waiting on delivery of a new machine; and you have the opportunity to apply your rental payments towards the purchase of that machine.
